

Reinforcement & Construction Machinery

CONCRETE POWER TROWELS

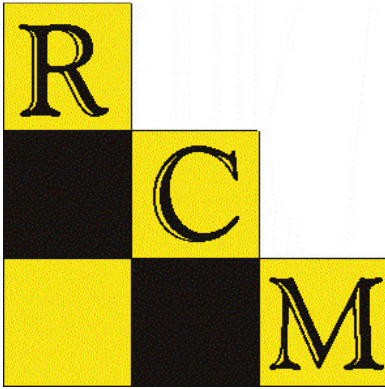

Features

- Trowel is balanced for excellent performance and reduces operator fatigue
- The handle incorporates a dead-man switch for operator safety
- The handle on the PT 900 is longer to give better leverage, and is adjustable for comfort and to absorb the Trowels torque.
- The PT 900 has a heavy duty guard ring for additional safety.
- The PT 600 is suitable as a final screed and as an edging screed.

Model PT 900

Model	PT 900
Trowel Diameter mm	900
Blade Dimensions mm	350 x 150
Trowel Speed r.p.m.	130
Engine HP	5.5 to 6.0
Engine	Honda / Loncin
Weight kg	88

Reinforcement & Construction Machinery

Model PT 600

Model	PT 600
Trowel Diameter mm	600
Blade Dimensions mm	175 x 152
Trowel Speed r.p.m.	50 – 100
Engine HP	5.5 to 6.0
Engine	Honda / Loncin
Weight kg	60

**Different Engines are available depending
on the customers requirements**
